Africa Logistics

Geis SDV - Your partner for logistics services in Africa

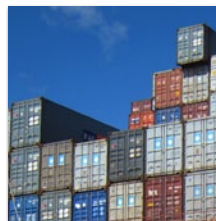

Geis SDV has the most extensive integrated logistics network in Africa.

The presence of Bolloré Africa Logistics in 41 African countries with over 200 own branches and 19,300 employees enables Geis SDV to create tailor made solutions that fit the individual needs of our customers worldwide.

Geis SDV is your partner for air and sea freight shipments as well as project logistics along the entire supply chain, inbound and outbound Africa. Our service portfolio includes the delivery to landlocked countries by every mode of transport as well as individual value added services and warehousing solutions.

Through trained staff, ISO and QHSE certification we ensure a continuous quality management. Integrated global IT systems provide online visibility and control of every consignment through to its final destination, utilizing track & trace with EDI capabilities.

Africa Portfolio

Door to Door Service

We organise and operate intermodal transport corridors across distances of more than 3,000 kilometres. We also offer precarriage and onwarding to / from landlocked countries.

Logistics

We handle project cargo and provide solutions for complex outsourcing projects and pick & pack utilizing 6.5 million sqm of warehousing space and own handling equipment.

Value Added Services

These services include the management of all documents, the preparation of orders, in-plant logistics solutions as well as supply chain management.

SDV Network Worldwide

Air, sea and project logistics with a global network

Geis SDV GmbH is one of Germany's leading service providers for air and sea freight as well as project logistics. In addition to our ten locations in Germany with 325 employees locally, we are part of SDV's global network. SDV is present in 90 countries with 521 stations worldwide and belongs to the French Bolloré Group.

Besides this global structure, our success is based on employees with many years of professional experience and know-how, a state-of-the-art IT infrastructure as well as a broad range of services.

“Your partner for global logistics services”
